Comfortable Day or Night, all year round

Smart ideas to beautifully complement your home

Roof Styles

Two Storey

Attached Skillion

Freestanding

Carport

Free Standing

A free standing patio design offers an oasis away from the home positioned in front of a pool or a cosy spot in the yard perfect for weekend gatherings, family events or regular outdoor dining. Your SolarSpan® patio designer and installer can offer a gable or skillion roof design for a free standing patio with a variety of exciting beam and post options to complement your home.

Fly Over

A SolarSpan® fly over roof creates an impressive open living area with high ceilings for additional head room, air flow, day light and unrestricted views. Create architecturally pleasing roof lines to enhance your home and breathe new life into an existing deck or patio with new found space and added comfort all year round.

Gable

Create a grand opening to your outdoor living area with a SolarSpan® gable roof whilst giving your patio additional height and ventilation of hot air. A variety of gable infill and beam options are available from your SolarSpan® patio designer and installer to deliver an exciting patio design.

Attached Skillion

For a guick, simple and cost effective addition to any home SolarSpan's attached skillion roof will extend your living area, provide a multi-use carport, boat port or general cover area which will protect you and your most valuable possessions from the heat and cold. Your SolarSpan® designer and installer will be able to assist you design the perfect under cover area adding value to any outdoor area of your home.

The ultimate in Patio & Pergola design options

A SolarSpan® outdoor shaded living area offers the ultimate freedom in design. Select from a wide choice of modern Colorbond® steel colours for your SolarSpan® roof, unique ceiling profiles, designer roofing accessories in Colorbond® and a selection of stylish posts and beams available in prepainted steel, aluminium or stained timber.

SolarSpan® creates wide open spaces with a ceiling-like finish due to its long unsupported spans. This allows home owners to further customise their design with ceiling accessories such as downlights, fans and other lighting solutions.

SolarSpan® truly allows you to create functional and beautiful outdoor living areas that complement your home and improve your outdoor lifestyle.

SolarSpan® approved UltraSlim 9W Downlight Kit

SolarSpan® offers a recessed downlight kit for use in insulated roofing, tested to conform to strict Australian Standards for compliance peace of mind. Custom designed for Bondor® roofing products, unique features include a slim profile light to maximise insulation, IP54 rating for outdoor and indoor use, flush fit surface cover with ultra bright LED technology and low heat emission. Our downlight kits are available in a choice of warm or cool light colour, two trim cover options and include up to 12m of easy connect extender cabling for simple installation.

Note, that off-the-shelf standard downlights may not conform to Australian Standards for use in insulated roofing and professional advice is recommended.

For more information, see the SolarSpan® UltraSlim 9W LED Downlight guide for inclusions and technical specifications, including a lighting layout guide.

Don't risk it.

Ask your installer to supply only SolarSpan[®]
9W UltraSlim downlights approved for use in Bondor[®]
roofing products, including 50mm thick SolarSpan[®],
which are tested and conform to Australian Standards.

Roofing Layer

- Superior low pitch of 2° minimum
- Available in thermally efficient and modern colours

Ceiling Layer

- Ceiling underside available in Colorbond steel Surfmist® or Classic Cream™*
- Two ceiling finish options in Plain or Elegance
- Low maintenance and durable Colorbond steel

Insulation Layer

- Outstanding thermal performance with CorePlus® EPS-FR Insulation
- Choose from 50 (R1.4), 75 (R2.1), 100 (R2.7), 125, (R3.3), 150 (R4.0), 200mm (R5.2) core thicknesses
- Service cabling ducts for ceiling lights and fans

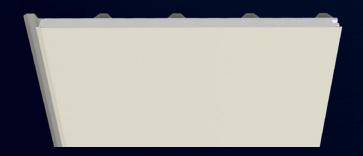

Roof Colour Range

SolarSpan's colour range has been rigorously tested and hand picked with the support of BlueScope® Steel to offer roofing colours with the best thermal performance, made tough for Australian conditions.

Ceiling Finishes

SolarSpan's ceiling layer is made from proven BlueScope Colorbond® steel, available pre-finished in Surfmist® (Off White) or Classic Cream™. Select from two popular ceiling underside finishes in either Plain or Elegance* that complement the home and offer stylish design options for your outdoor area.

Plain - Contemporary Look

'Plain' modern ceiling finish is a popular smooth ceiling surface option that embodies contemporary design, suitable for the modern home

Elegance* - Heritage Look

'Elegance' heritage ceiling finish delivers a 'VJ' look with distinct lines that emulate the look and feel of a heritage style home.

^{*} Conditions may apply.

[^] Darker colours warranted for use in limited regions. Check with your local SolarSpan® dealer for more information.

Why SolarSpan®?

An industry leading 20 year manufacturer's Warranty for SolarSpan® home improvement patio projects.

SolarSpan® is manufactured using two layers of genuine **Col**orbond steel with ACTIVATE Technology, warranted for low pitch roofing (2°).

For over 25 years, SolarSpan® has been made using unique CorePlus® Insulation with DeterANT technology for improved performance.

A full range of specially designed accessories, including lighting options, for use with SolarSpan® makes installation a breeze.

Manufactured using only BlueScope® Steel for our panel skins ensures quality Australian steel products and transparent and reliable warranties.

Industry leading span lengths achieved by rigorous physical lab tests by NATA certified labs to Australian Standards.

CodeMark™ provides confidence and certainty to regulatory authorities and the market requirements of the NCC.

Conforms to a Bushfire Attack Level (BAL) rating of BAL40 for use as roofing with the use of BAL accessories and installation requirements.

The above SolarSpan® span table is for use as a guide only for domestic patio covers attached to one-storey & two-storey homes. For full analysis please ask your builder, installer or engineer to use the SolarSpan® patio engineering available from your local dealer in reference to AS1170.2. Overhangs shall not be greater than 25% of the immediate backspan.

Experience

Bondor® has over 65 years of experience in the insulated panel industry and are one of the largest innovators of insulated products in the world.

Bondor® introduced insulated roofing to the Australian market 30 years ago offering an innovative insulated roofing product during 'Expo 88'. Bondor® has continued to lead innovation and now produces SolarSpan® across Australia with the latest in computerised laminating, roll-forming and cutting machinery.

SolarSpan's 20 Year Written Warranty

Bondor® have been producing insulated panel for over 65 years and have such confidence in their product that they offer a 20 year written manufacturer's warranty on their panel for patio & pergola home improvement applications.

SolarSpan® is readily available, with Bondor® manufacturing and distribution facilities across Australia.

Quality

Bondor® stands by SolarSpan® as the best quality insulated roof on the market and refuse to compromise on quality or your investment.

Manufactured with dual layers of Australian made next generation Colorbond® steel with leading paint technology and activate corrosion protection, SolarSpan® prides itself on manufacturing nationally using Australian made and compliant materials.

SolarSpan® is designed and rigorously tested in certified labs to meet the Australian Standards and withstand our harsh climate, UV exposure and cyclonic wind conditions.

Confidence

Bondor's experience and quality assurance gives customers the confidence that they can enjoy their insulated roof for many years without concern.
